

Open
Developers
Summit

Prospectus

Dallas, Texas

April 14, 2027

ODSD

ddemaio@opensuse.org

Background

The Open Developers Summit brings together developers, sysadmins, community leaders, and open-source enthusiasts from around the globe during SUSECON. The summit focuses on edge, cloud, operating systems, security, and open-source development practices. It will provide a space for collaboration, exchange of ideas, and showcasing innovation within the open-source ecosystem.

This free community event is made possible thanks to the generous support of sponsors and community donors. Your contribution ensures that the event remains accessible to all, and fosters collaboration and knowledge-sharing across open-source communities.

If interested, please contact Douglas DeMaio at ddemaio@opensuse.org
